

Trying to keep the right amount of stock on the shelf can be a tough balancing act, not to mention expensive.

With this revolutionary new adaptable mounting system it's the only beacon providing 6 different versions by stocking just one beacon. One Beacon will fit up to six separate applications.

- 3 hole mount standard bolt down
- Magnetic single or tri mount
- Pole Mount, solid or rubber
- Screw Mount

You simply stock the one Rotating Beacon and add the required attachment depending on your customers needs, thus greatly reducing your stock levels and saving you money.

- Auto fasten electrical connector already fitted.
- Polycarbonate dome — screw in mount.
- Base made of fiberglass reinforced ABS.
- Worm Drive.
- Sintered bush Bearing.
- Metalized steel reflector with balance counterweight.
